

Private sale - MG RV8 in beautiful Woodcote Green with cream leather interior

Woodcote Green 0796 with approximately 30,000 warranted miles from new (17,000km covered in Japan with Japanese service history until 1998). A really attractive example which was used to tour France last Summer following a large service and the fitting of Spax shock absorbers and power steering. I bought it following the tour as it was the best example I'd seen and boasted the best presented engine bay. The the previous owner spent over £6,000 on improvements including around £1000 on gtechniq smart surface coatings with Deepshine Detail (5 year guarantee). It boasts the later five speed gearbox and matching quality tyres. The hood presents very well and has a new rear window and there is a full tonneau. The cream leather covered seats are complemented by an attractive wooden MGR gear knob and brake handle.
