

A section of the A11 between Newmarket and Thetford will be closed this weekend – this is a popular route for MG enthusiasts going to Snetterton this weekend

Fiveways Roundabout closed

A section of the **Fiveways Roundabout** on the A11 between **Newmarket** and **Thetford** is to be closed from 8pm Friday 4th to 6am Monday 7th October for works in connection with the construction of new dual carriageways on the A11. As the A11 is a popular route for many MG enthusiasts making their way to Snetterton from the west via Baldock (A) on the A1 or via the M11, this note is to forewarn you of the closure and to **suggest a diversion via Bury St Edmunds (B) and then to Thetford so you can continue to Snetterton (C) on the A11.**

As you pass Newmarket on the A11 turn off on to the **A14** heading east for Bury St Edmunds.

Near the sugar beet plant on the outskirts of Bury St Edmunds, turn left on to the **A134** and head north for Thetford and rejoin the A11 just west of the town.

See the Highways Agency closure and diversion document:
