

MGV8s at an MG90 event in Portugal

RV8 in Woodcote Green (Japan reimport) owned by Alberto Cruz. This car is registered on the V8 Database. Below, MGS SV-R.

MGB GT V8 (1973) in Glacier White which has been converted to LHD owned by Bruno Rodrigues. This car is registered on the V8 Database.

Victor Rodrigues reports that last weekend (12th-14th September) he together with Evelyne participated with MG-friends in Portugal on an MG event in the thermal village of Curia in North Portugal. There were about 178 cars of all ages together with around 350 persons! Quite a lot for a small country like Portugal indeed. The event was a joint initiative of the Automobile Club Classics Portugal, Maia MG Club and MGCC-Portugal, celebrating the "MG 90".
