

## MGV8s seen at 24H Le Mans 2015 by Bob Grieves

Bob Grieves says "just about sorted out from my return from Le Mans, I have attached a few photos. I met another French MGBGTV8 owner at St Saturnin and he allowed me to take details of his car for the register. He was Hubert Meilhac and the number on the offside inner wing plate was 1771. The car is a RHD model in blue and it has had a full refurbishment and respray." Both French registered MGBGTV8s are not on the V8 Register and the RV8 cannot be checked as the registration plate is covered by the rally plaque.
