

Swiss MGV8 group – second annual natter with wonderful weather

Victor Rodrigues reports the **Swiss MGV8/IG held their second Annual Natter** last Saturday 19th September 2014. The day started with the traditional morning Apéro in Victor's garage (above right), followed by a short country road-drive, finishing with a SWISS-MG/V8 lunch at our regular natter-place. A feature at this event was the arrival of the outstanding and rare MGBGTV8 - the very first production LHD car GD2D2-DUD-101-G in Green Mallard with an original sunroof - with his proud owner Fritze Gertsche.
