

RV8 main header rail & filler

RV8 main header rail & filler

We have had this new replacement part made by one of our suppliers and to overcome a problem we had seen with many RV8s (a rubber hose connected to the end of the rail rubbing on an adjacent part which has lead to leaking) the fixings have been moved back by 3mm. The new part has better plating too. Available at **£59.95** including VAT plus P&P/delivery from Clive Wheatley mgv8parts.
