

Exceptional RV8 in Nightfire Red

Nightfire Red 0424 is a UK spec RV8 with an exceptionally low mileage of only around 1,600 miles from new. It's an early RV8 which was previously owned from new by an MG Rover dealer in northern Scotland and for many years was on display in their showrooms. It comes with a half tonneau, toolkit, leather handbook holder and the invoice for the last service by the Scottish Rover (Honda) dealer. A new fuel pump and filters have been fitted recently. Offers invited around **£22,000**.

Why is this exceptional low mileage RV8 up for sale?

The present owner, Peter Jung, bought the car when it was offered for sale earlier this year but as he wishes to heavily modify an RV8 with the front and rear suspension modification kits from John Hoyles and carry out some engine upgrades, he feels it would be criminal to mess this exceptional car about. So he has decided to buy another RV8 from Clive Wheatley for his upgrade project and wishes to sell Nightfire Red 0424. He is offering this exceptional car through Clive Wheatley who will not be taking a commission from the sale. If you should require any more information please contact Clive Wheatley through whom all offers should be made.

Stone Beige leather seats and trim with Elm burr dashboard and door cappings

Windscreen surround is in excellent condition

Hood is excellent
