

Private sale – exceptionally low mileage reimported RV8 in Woodcote Green

Woodcote Green 1425 (1995) is immaculately presented and a perfect example of this rare sports car. It was re-imported by me from Japan in June 2003 with only 600km on the odometer (documented). I have used it very sparingly in dry weather in the UK and she has only covered a further 600 miles. The car is in concours condition in all aspects with stunning perfect original paintwork. The seats, wood veneer, carpets, over-carpets, door panels etc are all as new. The engine bay and wheels are in show condition. Screen frame is perfect. Original radio and CD auto-changer. Half and full length tonneaus. Original unused toolkit and Rover workshop manual. Stored in dehumidified garage under a tailored car cover with battery conditioner. Full documentation available. Many genuine spares included plus original Japanese odometer. Reluctant sale to give space for MGBGT V8 restoration. Must be seen to confirm she is one of the best original RV8s available. MGR personalised registration included in the price. The car is currently on a SORN but a full MOT will be provided. Price **£19,750. 120402**

If you are truly interested and for more information please contact David Brindle on **01768 371084** (evenings) or by email. Location Cumbria.
