

MGBGTV8 restoration project very nearly completed

Lorraine Noble-Thompson reports the restoration of her MGBGTV8 is very nearly completed with only a few detailed matters to finish. She refers to the car as “Cadbury” as it is finished in Aconite.

On Saturday Lorraine said “I picked Cadbury up today – it has still a few things to sort but he’s at the Thurlstane show this weekend as I wanted to take him there”. The show is the 48th BVCA Classic 2023 at Thirlestane Castle, Lauder in the Scottish Borders. It’s the premier classic car show in Scotland and has been held annually at Thirlestane Castle for over 15 years and is organised by the Borders Vintage Automobile Club. This festival of motoring attracts over 1,000 classic and vintage cars of all models and styles, plus motorcycle and military vehicle displays. [More](#)
