

## MGBGTV8 in New Zealand on tour

Imported to New Zealand in 1978 by the second owner and then purchased by Lee Searle. He restored the body and used it as an everyday car. The present owner Don Carter bought the car from Lee about seven years ago and enjoys the V8 on tours, often through the stunning scenery in New Zealand. Here he's on the Penrite Mainland Classic 2010 on the South Island in October beside Lake Wakatipu near Queenstown. The V8 has the distinctive and very appropriate registration plate "73V8MG".
