

First rubber bumpered MGBGTV8 in Switzerland

A longstanding V8 enthusiast in Switzerland, Jacques Milliet, has acquired the first rubber bumpered MGBGTV8 (Teal Blue 2101) previously owned by the late Geoff Allen (the former V8 Historian and Archivist). Here he is with his three sons Louis, Charles and Alexandre. The car will be soon modified to accept a dual line brake circuit needed to register the car in Switzerland. Jacques knew Geoff and Jean Allen well.
