

News of MGBGTV8 Bracken 1773

Martin Evans from Gwent registered an MGBGTV8 (Bracken 1773) saying "the car remains in the same family; I have just taken over from my father. Not much has changed since 1993. It was recently checked (again) on a rolling road and found to give 170bhp. It's done only 46,000 miles from new and is going well".
