

Private sale – rare low mileage hand built RV8 GT

RV8 GT with Blue bodywork, not to be confused with a V8 fitted with RV8 wings, has been built using all genuine RV8 parts throughout including trim and is immaculate underside as it is on the bodywork. All chassis modifications carried out to accept all RV8 running gear, I'm sure the photographs speak for themselves. The engine has fast road cams and the ECU has been chipped. It has a custom made exhaust. Many parts made from stainless steel and superb detailing throughout. The car cost an absolute fortune to build and has only covered just over 3,000 miles from new, with spotless unmarked wheels and tyres that still look new. MOT and taxed until July 2012. Registration number is not included in the sale. Further details are available by email as there are too many to list here. **£23,950** 220811
Contact: Phillip Jones at philip.mgcars@btinternet.com or phone **07926 749703**. Location: Dorset
