

Private Sale – reimported RV8 with air conditioning

Woodcote Green 1664 (95 M) with 24,000 miles (12,000 in Japan and 14,000 by me). Reimported for me by HS Imports in 2004, when a new hood and Pirelli tyres were fitted and the elm dash and trim refurbished. Original half tonneau and an aftermarket matching full tonneau, plus a windbreak. Koni yellow shocks all round. Optimax chip and Magnecor leads from RPI Engineering. Gussets have been welded to the steering rack and the water pump has been recently renewed. New Sony radio, original radio is available. It has a Starkey elm gearknob, plus the original gearknob. The aircon works well and the beige leather is in good condition throughout. The screen surround is rust free. The car is taxed to January 2010 and the MOT expires in September 2010. Regularly serviced by me. A superb and original example. Price, to include some brake spares, workshop manual and contemporary publicity material, **£12,750.** (11.8.09)

Contact: John Dutton on **01959 522548** or by email.

Location: West Kent.
