

Offside cast iron exhaust manifold for an MGBGT V8 for sale

Offside cast iron exhaust manifold for an MGBGT V8 for sale

Offside cast iron exhaust manifold for an MGBGT V8 for sale

A former V8 owner found he had a spare manifold and offered it to the V8 Register for a V8 enthusiast in need of a replacement offside unit with the proceeds going to charity – Help the Heroes. The condition of the manifold seems to be virtually “as new” as you can see from these photos. The only issue was that one of the bolt holes in the flange above that joins the exhaust manifold to the exhaust pipe had a thread which needed cleaning so the bolt can cover the whole of the thread. The thread was cleaned by a V8 specialist so it can now be offered for sale by auction. Any V8 members interested in bidding for this item should register as a Registered Bidder.
