

MGB V8 Roadster – Tony Arnold

Tony Arnold says “after a year in and out of hospital having had four different things going wrong and some surgery I can now start to have an almost normal life, feeling far much better. During my illness I did sell my RV8 and the MGB rally car, the reason for this the medical people ask me to do it this would allow my wife not have to be worried with regard to selling them both things were that bad. The only MG car I have now is the Frontline LE 50 and this will also be up for sale very shortly. The MG I will be using some rallies is the ex Peter Brennan V8 Roadster which I believe is known to the V8 Register”. Photos of this good looking V8 Roadster are above.
