

V8 Spares for Wanted

Searching for an original right hand headlamp surround for a RV8 part number ZKC8305. Mine was in a collision with a pigeon some time ago finally giving up being one piece last year. No new ones available so tried a fibreglass replacement. The fit is poor and the surface has started cracking after a few months. So I would I like to find an original surround – preferably for a later car – any colour. Price to be agreed. George on **07742 006260** or gwilder@btinternet.com
